Professional Summary

I'm a seasoned Senior software Engineer with over 9+ years of experience in PHP, Laravel, and JavaScript. Specializing in performance optimization, process automation, and building scalable, user-centric applications. Skilled at leading teams, streamlining workflows, and ensuring high-quality results that align with business goals.

Key Skills

Tech Stack: PHP, Laravel, JavaScript, React.js, JQuery, HTML, Bootstrap, CSS, MySQL, OOP, MVC

Tools: Docker, Git, CI/CD, Jira

Methodologies: Agile (Scrum/Kanban)

Other: Team leadership, Code optimization, Mentorship

Professional Experience

Senior Software Engineer (On Site)

Pengroup, Canary Wharf, London | May 2024 – Present

- Initiated performance improvement that increased development velocity by 60-70 percent through configuring SSL connections and using Docker so as to avoid the manual exchange of files through FileZilla.
- Streamlined deployment processes by establishing a CI/CD pipeline and repository for the staging server.
- Facilitated Agile practices and aspects which enabled a more productive team with shorter time taken to deliver projects.
- Provided efficient reusable components and multi-query logic for more efficient data retrieval which minimized load on the system.
- Conducted system reviews, identifying key areas for improvement to support business objectives.
- Developed and demoed SPA projects using Laravel and React, fostering cross-functional collaboration.

Full Stack Developer (Remote)

Global Consulting, Ahmedabad | Sep 2022 – May 2024

- Led the charge on automating business processes, cutting down repetitive tasks, and improving overall efficiency by 50%.
- Took performance to the next level by optimizing database queries, which resulted in a 30% improvement in load times across the board.
- Collaborated with clients to fine-tune project requirements, ensuring that each deliverable matched their needs and expectations.
- Integrated third-party tools to reduce manual work, ultimately increasing productivity and speeding up project timelines.

Senior Software Engineer (Hybrid)

AVDevs, Vadodara | Sep 2021 – Sep 2022

<https://www.naturalhr.com>

- Set up and managed new project environments, solving complex issues and ensuring the development process was smooth from start to finish.

- Focused on mentoring and improving team productivity through code reviews and performance optimizations, reducing page load times by 30%.
- Took proactive measures to prevent bugs, reducing error rates by 65-70% and improving overall system stability.

Assistant Team Leader (Hybrid)

Flydocs Aero, Vadodara | Oct 2017 – Sep 2021

- Led a 6-member team, focusing on collaboration and accountability to quickly resolve issues and meet SLA targets.
- Improved website performance by 40-50% by streamlining database queries and optimizing code, which helped handle higher traffic volumes with ease.
- Fostered a culture of knowledge-sharing within the team, holding regular sessions that led to a measurable improvement in performance and productivity.
- Took ownership of both team leadership and technical tasks, balancing mentorship and delivery of high-quality software.

PHP Developer (On Site)

Flydocs Aero, Vadodara | Aug 2015 – Oct 2017

- Developed clean, maintainable PHP code while building dynamic, user-friendly web pages that improved the overall user experience.
- Ensured compatibility across browsers and devices, performing rigorous testing to ensure smooth performance for all users.

Education

Master of Computer Applications (M.C.A)

Gujarat Technological University, Ahmedabad | Feb 2016

Bachelor of Computer Science (B.Sc. C.S.)

S.P. University, Anand | Mar 2012
